

GREEN WALK.....

- Journey Towards Greener World Together

INFOSYS – LEED Campus(es)

Our team is delighted to have delivered four of the largest LEED EBOM rated campuses in India (Infosys Campuses @ Mysore, Hyderabad, Pune, and Chennai). These campuses have achieved Platinum certification with highest level in the world. With this, LCES has become an organization delivering the largest number of campuses for LEED rating. This, indeed, is a remarkable step for India on the world map towards sustainability. LCES feels proud to be a part of this unique journey with Infosys.

RECENT DELIVERIES

BOLT, PUNE

Barclays Technology center (BOLT) in Pune is certified LEED Gold under v4 ID+C (Commercial Interiors) rating system. With a gross floor area of about 81000 sq.ft, it has been able to achieve 185 MWh savings in energy and 1750 KL savings in water. This project has become one of the few rated under the v4 version of LEED in this country as on today.

VR MALL, CHENNAI

VR Mall at Chennai is certified Gold under LEED India Core & Shell rating system. VR Mall has been delivered recently and is yet another milestone for LCES. Our team at LCES has been able to deliver the project within a record time to meet the client's requirement for early inauguration and opening of the mall.

RECOGNITION

RECOGNITION

M. Selvarasu, Managing Director at LEAD consultancy, LEED Fellow and IGBC fellow, has been recognized as a LEED faculty now

USGBC Faculty is a global network of credible, qualified instructors, teachers and facilitators with deep expertise in and passion for sustainability that cuts across sectors, cultures and geographies.

LEED INTO NEW PORTFOLIO – ULTIMATE IN SUSTAINABILITY

LEAD consultancy has started to consult for smart building controls to ease operations & give control to owners for greener buildings. Smart building controls provide advanced functionality through a computerized, intelligent network of electronic devices designed to monitor and control the mechanical, electrical, lighting and other systems in a building.

DID YOU KNOW?

- IGBC is expected to launch a net zero energy rating program shortly to promote energy positive buildings in this country
- The LEED v4.1 EBOM has bought about an incremental update to the existing LEED rating systems. The new update has made the rating system more user friendly and better for operations and measuring how green the building is.
- USGBC is proposing to launch LEED rating for new transit, across the globe. This is one of the most awaited rating systems as it specifically deals with rating for metros and other public transit systems.
